S Staging Area Description

- Temporary locations for resources awaiting assignments.
- Incidents may have several Staging Areas.
- Resources on a three-minute available status.
- May include fueling and sanitation.
- Staging Area Manager is required.
- May be designated for certain kinds of resources.

Characteristics of a Staging Area

- Be close (within five minutes) to the location of tactical assignments.
- Be located out of any possible line of direct hazard effects to minimize risk.
- Be relocated if necessary.
- Have different access routes for incoming and outgoing resources.

Characteristics of a Staging Area (cont.)

- Be large enough to accommodate available resources and have room for growth.
- Be clearly marked.
- Be located to minimize environmental damage.
- Have necessary security controls.

Staging Area Benefits

- Provide locations for immediately available resources to await active assignments.
- Provide locations for resources to be formed into operational units such as task forces and strike teams.
- Provide for greater accountability by having available personnel and resources together in one location.
- Provide safe locations for personnel and equipment to await assignments.

Staging Area Benefits (cont.)

- Prevent resources from free-lancing or "doing their own thing"
- Minimize excessive communications of resources calling for assignments.
- Control and assist the check-in of personnel who arrive at the incident via privately owned vehicles or other private means.
- Allow the Operations Section Chief or IC to properly plan for resource use, and to provide for contingencies.
